PROFESSIONAL SUMMARY

Results-focused Full-Stack Software Engineer with practical industry experience in developing, deploying, and maintaining scalable web applications. Proficient in building modular frontends with React.js and engineering robust backend services using Python, Flask, Django, and RESTful APIs. Experienced with Azure cloud environments and Git-based collaborative workflows to deliver reliable, production-ready software.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, SQL, HTML5, CSS3
- **Frontend Engineering:** React.js, Component Architecture, Responsive Web Design, Modern CSS
- **Backend Engineering:** Flask, Django, RESTful API Development, Microservices
- **Cloud & DevOps:** Microsoft Azure, Linux/Unix Environments, Git, GitHub, Postman

WORK EXPERIENCE

Staunch Technologies Pvt. Ltd. — Chennai, India[cite: 1]

Associate Software Engineer | December 2025 – Present[cite: 1]

- Design, build, and maintain production web applications, ensuring high responsiveness and system performance.
- Implement dynamic, reusable interface components using React.js to enhance front-end application speed and consistency.
- Engineer and integrate secure RESTful APIs to connect client user interfaces with backend databases.
- Debug and resolve functional issues across systems, optimizing backend routes and application logic.
- Utilize Git and GitHub for version control, code reviews, and structured deployment readiness within an agile engineering team.

TECHNICAL PROJECTS

Neurostore – Full-Stack E-Commerce Platform

Full-Stack Developer

- Built an end-to-end e-commerce platform designed for product catalog navigation and order workflows.
- Implemented a modular, responsive frontend utilizing React.js and modern CSS standards.

- Developed secure backend routes, API communication, and data handling using Python and Flask.
- Configured application services and database deployment pipelines on Microsoft Azure for high uptime.

Jubilant – Dynamic Web Store

Full-Stack Developer

- Developed an interactive e-commerce web application featuring real-time product search, filtering, and cart management.
- Created a cross-platform responsive design optimized for performance across desktop and mobile browsers.
- Structured client-side state handling and RESTful endpoints for real-time inventory updates.

EDUCATION

Rohini College of Engineering & Technology — Kanyakumari, India

Bachelor of Engineering (B.E.) in Computer Science and Engineering | 2020 – 2024

- Cumulative Grade Point Average (CGPA): 8.105 / 10.0

LANGUAGES

- English: Professional Working Proficiency
- Tamil: Native / Bilingual Proficiency
